MANUAL DRUM TRUCK

Load Capacity: 350kg

Manual Drum Truck

Heavy-Duty Hydraulic Manual Drum Truck

The Manual Drum Truck is a heavy-duty and efficient hydraulic drum trolley designed to handle, transport, 210-liter steel and plastic drums with a capacity of up to 350 Kg. Built for durability and ease of use, this drum handling truck is a must-have solution for warehouses, factories, chemical plants, oil industries, and logistics facilities. Equipped with a robust hydraulic lifting system, the manual drum carrier truck ensures safe and controlled movement of heavy drums with minimal effort. Its ergonomic handle and sturdy wheel design make manoeuvring easy, even in tight warehouse spaces. The secure gripping mechanism ensures drums remain stable during transportation, reducing the risk of accidents and spills.
