MANUAL LIFT TABLE

Load Capacity: Upto 800kg

Manual lift table

Heavy-duty manual lift table

Ideal for warehouses, factories, workshops, logistics hubs, and assembly lines, this manual hydraulic scissor lift table offers a practical solution for lifting, moving, and positioning heavy loads. With a 350 kg capacity, it's engineered for durability, ease of use, and workplace safety—making it a reliable asset for any material handling task.

Multi-use hydraulic lift

The lifter features swivel castor wheels with integrated safety brakes, allowing smooth maneuverability and secure placement even in confined areas. An overload protection valve safeguards both the operator and the hydraulic system from excessive loads. Its compact and adaptable design enables it to serve as a lifting table, mobile workstation, or workbench ideal for diverse industrial and commercial environments.

Features

- ▶ Robust construction and easy to use
- ▶ Foot pump hydraulically raises platform
- ▶ Hand operated table descent control
- ▶ Double pump, heavy duty design
- ▶ Overload valve protects pump and operator
- ▶ Polyurethane casters: 2 swivel with brake, 2 fixed

Specifications

MODEL			SLT350B	SLT500A	SLT800A
1	Load Capacity	kg	350	500	800
2	Min. height	mm	360	280	415
3	Max. lift height	mm	1300	900	1000
4	Table dimension	mm	905x500x50	815x500x50	1016x510x60
5	Dia of the wheel	mm	Ø125	Ø125	Ø150
6	Net weight	kg	100	77	104
7	Packing dimesions	mm	1010x520x380	900x510x310	1140x570x425
