FOLDABLE
PLATFORM TROLLEY

FOLDABLE PLATFORM TROLLEY

Load Capacity: 150kg / 300kg

Strong, smooth, ready to roll

Folding platform trolley

The Folding Type Platform Trolley is a versatile and durable material handling solution designed for effortless transportation of goods in warehouses, factories, retail shops, offices, and logistics operations. Built with a sturdy steel frame and a non-slip platform surface, this platform trolley with wheels ensures safe and stable movement of goods with capacities of 150 Kg and 300 Kg.

Precision handling in tight spaces

Equipped with a foldable handle, the folding hand trolley cart saves space when not in use, making it convenient for both industrial and commercial applications. The smooth-rolling caster wheels provide excellent maneuverability, allowing easy handling even in tight aisles and confined spaces.

Built for efficiency and durability

Whether for lightweight goods (150 Kg capacity) or medium-duty loads (300 Kg capacity), this industrial platform trolley delivers reliability, efficiency, and durability, making it an essential tool for any workplace.
