## SUPER LONG HAND PALLET TRUCK

### **SUPER LONG HAND PALLET TRUCK**

Load Capacity: 2000kg

# 2000mm Fork for Extra-Large Loads

## Ideal for heavy & oversized load handling

The Super Long Manual Hand Pallet Truck with 2000 mm fork length and 2000 Kg load capacity is specially designed for handling extra-long pallets, bulky loads, and oversized materials with ease. Built from high-strength reinforced steel, this heavy-duty pallet truck ensures maximum durability, stability, and performance in demanding warehouse, factory, and industrial environments.

## Control & easy lifting

With its 2000 mm extended fork length, this pallet truck is the perfect solution for transporting pipes, timber, steel rods, long crates, and extra-large pallets that standard pallet jacks cannot manage. The ergonomic 3-position control handle (Lift, Neutral, Lower) allows smooth and safe operation, while the precision hydraulic pump guarantees effortless lifting and controlled lowering with minimal maintenance requirements.

## Low-maintenance durable wheels & rust-resistant finish

Fitted with premium polyurethane wheels, the truck offers quiet movement, excellent floor protection, and easy maneuverability, even when carrying long and heavy loads. The powder-coated finish provides resistance against rust and wear, making it suitable for continuous use in warehouses, logistics centers, construction sites, and industrial workshops. Its low-maintenance structure makes it a cost-effective and long-lasting material handling solution.

## Quality and Toughness

### High-strength chassis with 100% robotic welding

Minimal welding deformation, high precision and consistency, guaranteed welding quality.

### High-strength forks

Additional stiffeners on back of the forks for increased load capacity. Grooved forks, with a 400kg increase in static load capacity compared to flat forks.

### Reinforced top cap

Additional support structures to increase strength and extend lifespan.

## Budget-Friendly

### Single-piece cast pump designed for reliability, built tough, and simple to maintain

Removable piston guide cap, easy to maintain and repair. Over 200,000 times mechanical tests on working life. Annual volume over 500,000 pieces, reliable with no oil leakage. Removable small pump core design for easier repair and service. Thickened steel spring for stronger elasticity and longer working life.

## Wheel Options

### Multiple options suitable for different working conditions.

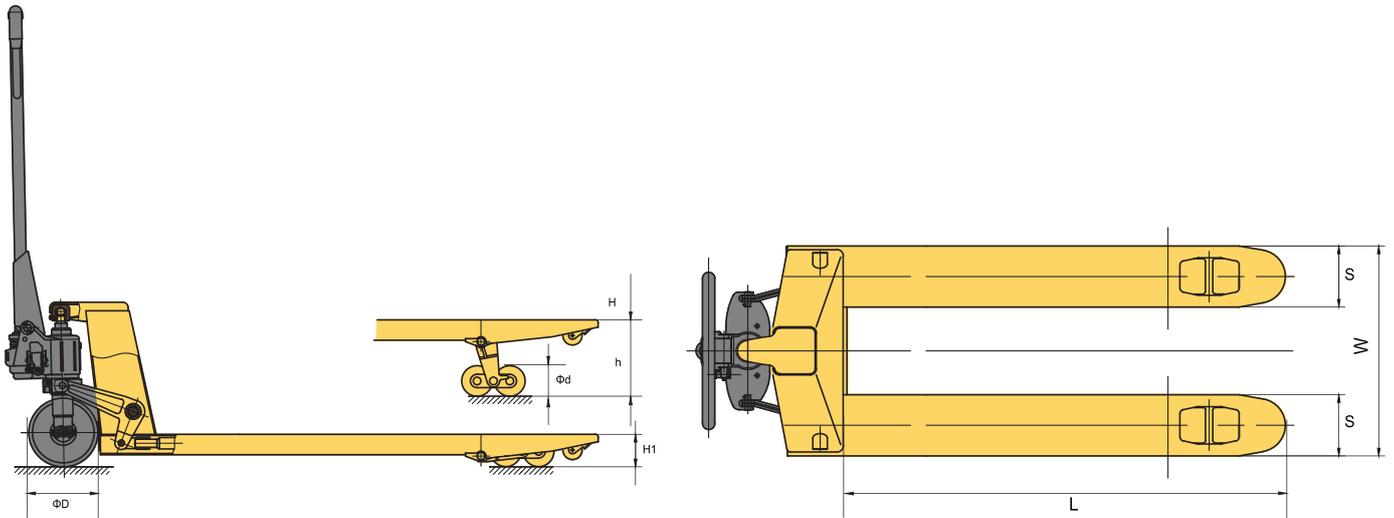

Nylon Wheels

PU Wheels

# Specifications

MODEL		SMPT20-2000	
1	Capacity	kg	2000
2	Pump type		BF
3	Wheels (drive/load) type		Nylon/PU
4	Size of steering wheel	ØD mm	200*50
5	Size of loading wheel(single wheel)	Ød mm	74*93
6	Size of loading wheel(double wheel)	Ød mm	74*70
7	Lifting height	h mm	120
8	Max. fork height	H mm	195
9	Min. fork height	H1 mm	75
10	Fork outer width	W mm	550
11	Fork length	L mm	2000
12	Fork width	S mm	160
13	Steel thickness	mm	3.75
14	Weight	kg	98~102
